[Online Version – Click Here](#)

Sedan • SUV • Limousine • Van • Limo Bus • Shuttle Bus • Motor Coach

The Green Preferred Supplier List is an easy to use directory for DMC's, Event Planners, Corporate Travel Buyers and Procurement Departments to find Chauffeured Ground Transportation companies that have made environmental sustainability a primary focus moving forward.

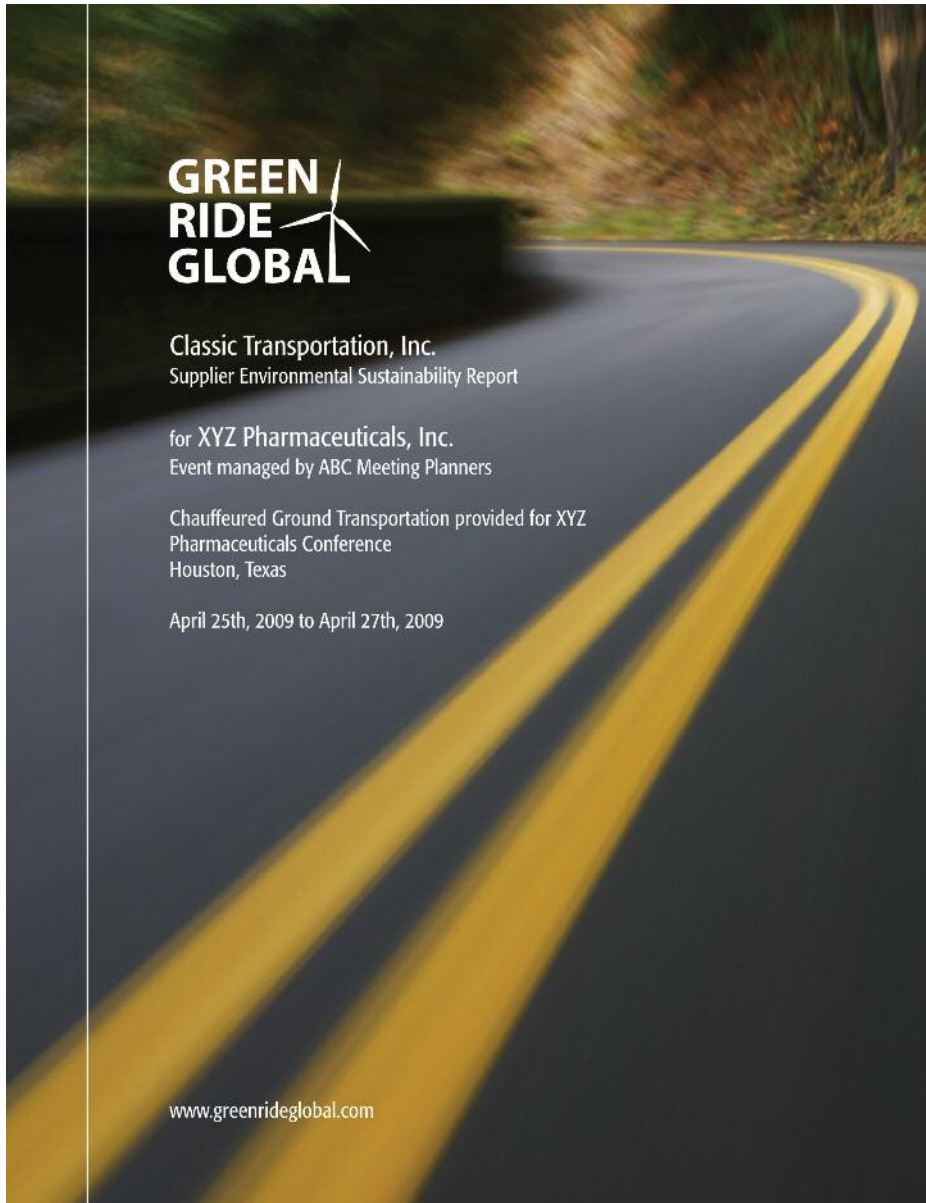

Green Ride Global implements industry leading environmental sustainability programs into ground transportation companies around the world. All Green Ride Global member companies are operating inside of a robust Environmental Policy and are provided with the Environmental Management Resources to track, manage and reduce their carbon emissions.

- ✓ Corporate Environmental Policy (Silver, Gold & Platinum Members)
- ✓ Environmental Management Resources (Silver, Gold & Platinum Members)
- ✓ ISO 14001 Compliant Environmental Management System (Gold & Platinum Members)
- ✓ Verified Monthly GHG Emissions Reporting (Platinum Members)
- ✓ Annual Fleet Reporting (Gold & Platinum Members)
- ✓ Complete Business Wide GHG Inventory (Platinum Members)
- ✓ Fortune 1000 RFP Environmental Verification (Gold & Platinum Members)
- ✓ 3rd Party Issued Supply Chain Emissions Reporting (Platinum Members)

CARBON DISCLOSURE PROJECT

All Platinum Green Ride Global member companies have the ability to provide you with greenhouse gas emissions reporting for events, conferences, meetings or overall monthly, quarterly and annual transportation usage.

GREEN RIDE GLOBAL

The Carbon Accounting™ System
To allow for the accurate monitoring of greenhouse gas inventories between countries, international organizations accountable for the tracking and reporting of greenhouse gases have aligned on a system that categorizes GHG-emitting activities into three main areas: Scope 1, Scope 2 and Scope 3.

SCOPE 1 EMISSIONS
Scope 1 emissions are those that are directly caused by an organization's business activities through stationary combustion (e.g. burning fuel in a boiler), mobile combustion (e.g. burning fuel in an aircraft), and refrigerants not containing the greenhouse (e.g. fugitive refrigerant gases).

SCOPE 2 EMISSIONS
Scope 2 emissions are caused indirectly by an organization's business activities through the purchase and consumption of electricity and steam from a utility.

SCOPE 3 EMISSIONS
Scope 3 emissions are indirect emissions from all other activities caused by the organization. They include GHG emissions from employee travel, employee commute, waste disposal, supply chain practices, and product transport.

This report documents XYZ Pharmaceuticals' Scope 3 GHG emissions from the use of Classic Transportation's ground transportation services over the period April 25th to April 27th, 2009.

XYZ Pharmaceuticals' Ground Transportation Emissions
April 25th to April 27th, 2009
XYZ Pharmaceuticals' baseline transportation-related GHG emissions year in 2008. Emissions were calculated from:

1. Chauffeured Sedan usage
2. Chauffeured SUV usage
3. Van usage
4. Bus usage

1. Chauffeured Sedan Usage
Distance Traveled (miles): 587,425
Fuel Consumption Gasoline (gallons): 23,218
Fuel Consumption Diesel (gallons): 0
Fuel Consumption Other (to be listed by fuel when applicable) (gallons): 0
Overall Fuel Efficiency (mpg): 25.3
GHG Emissions (metric tons CO2e): 217.8
GHG Emissions Intensity (metric tons CO2e/100 miles): 0.037

2. Chauffeured SUV Usage
Distance Traveled (miles): 49,403
Fuel Consumption Gasoline (gallons): 2,729
Fuel Consumption Diesel (gallons): 0
Fuel Consumption Other (to be listed by fuel when applicable) (gallons): 0

RECIPIENT ORGANIZATIONS

www.greenpreferredsupplierlist.com

Recipient organizations have requested to receive updated versions of the Green Preferred Supplier List on a bi-monthly basis. These organizations understand the importance of environmental sustainability as it relates to ground transportation. All Platinum GRG/GPSL companies can provide event or trip specific supply chain emission reports. These reports enhance the recipient organizations' ability to prove that their ground transportation partner is operating inside the highest level environmental sustainability programming possible.
